Over 50 Million Emails...select by industry & job title

Background:

Email databases are hard to come by and they become outdated pretty quick. At Hugo Dunhill we have contacted hundreds of different sources to find our initial email list. Then we put these email addresses through a detailed hygiene and delivery qualification process and have generated a database of over 50 million emails. These email lists are selectable by Type of Business, SIC Code and Geography.

How Can I Buy Your Email Lists?

The choice is yours:

- 1) You can select a list and have us create an email design and deploy it for you. We do all the work and you just sit back and watch the results pour in!
- 2) Simply buy the email list outright and you do your own deployment. Either way – all you have to do is call.
