Our DB Source database is multi-sourced using yellow pages and business white pages, along with annual reports, government data, business directories, corporate and executive registers and public records. In order to ensure accuracy, the file is then put through a telephone verification process to update and obtain additional information such as employee size, key contact name and primary SIC code.

The fact is that well-sourced, intelligently selected business lists and demographically rich databases are the most powerful tools for selling products and services in today's complex business environment. Reaching the right person with the right message is everything. Hugo Dunhill's DB Source database can do just that for you. We can help you locate new markets, identify new opportunities and build existing relationships.
